

## **Envision Financial Systems Named One of Orange County's Fastest Growing Technology Companies in Deloitte Technology Fast 50 Program**

Attributes Strong Customer Relationships To Its 175 Percent Revenue Growth

July 28, 2004, Tustin CA — Envision Financial Systems has been named to Deloitte's prestigious Technology Fast 50 Program for Orange County, a ranking of the 50 fastest growing technology companies in the area by Deloitte & Touche LLP, one of the nation's leading professional services firms. Rankings are based on the percentage of growth in fiscal year revenues over five years, from 1999–2003.

Envision Financial System's CEO Satnam Gambhir credits strong relationships with mutual fund companies with the company's 175 percent revenue growth from 1999–2003. He said, "At Envision, we follow a simple formula: listen to our customers and satisfy their needs with open and flexible systems. From day one we have built our transfer agency system based on feedback from the marketplace. We believe that as long as we continue to serve the mutual fund industry to the best of our abilities, revenue growth will follow."

"In an era where technology companies come and go, making the Deloitte Fast 50 is a testament to a company's vision that allows growth over five years. Envision Financial Systems' leadership have the right stuff for growth, and Deloitte salutes their accomplishments," says Mark Miskinis, partner in the Technology, Media & Telecommunications practice with Deloitte.

To qualify for the Technology Fast 50, companies must have had operating revenues of at least \$50,000 in 1999 and \$1,000,000 in 2003, must be public or private companies headquartered in North America, and be a "technology company" defined as owning proprietary technology that contributes to a significant portion of the company's operating revenues (using other companies' technology in a unique way does not qualify); and/or devoting a significant proportion of revenues to research and development of technology.

Winners of the 19 regional Technology Fast 50 programs in the United States and Canada are automatically entered in the Deloitte Technology Fast 500 program, which ranks North America's top 500 fastest growing technology companies.
